

These are some key areas in which the students are encouraged to participate outside the normal course of the study.

Sports - At BJS Dental College, sports form one of the important aspects of a student's development.

From increasing concentration levels and working as a team to inculcating a winning spirit; sports help students build a strong character and personality. Facilities present in the campus include huge grounds for football, cricket, volleyball, badminton. In addition college organizes an annual sports meet wherein competitions for all these sports are held.

Community Service - It is important that a well-groomed professional participates in meaningful activities in the college campus and within the community. Dentistry is a service-focused profession and BJS dental college encourages students to demonstrate their promise to serve the community throughout their lifetimes. Community service is included in our mission statement .We have partnerships within the community to provide care to underserved populations. We have adopted various schools and societies where the students provide free service and guidance to children and their parents and Academic Research. Our institution is focused on research and have research opportunities available to all students. The purpose of providing orientation towards research is to improve the quality and outcomes of dental care for patients, and discover and develop novel methods for diagnosis and treatment.

The institution also collaborates with other local, national and international institutes to develop the best science and practice in both clinical care and research. A part of it includes publishing cutting edge research articles in international peer reviewed journals.

Leadership Positions - We believe that a focus on leadership would change the culture of our profession in a positive direction. It includes volunteering for various events organized by the college like CDE programs and seminars as well as training for practice management.

A Serious Hobby - We understand that developing new hobbies will improve the work-life balance and will cultivate skills that will improve competitiveness in the workforce. Students are encouraged to take on a hobby to develop personal skills and separate themselves from others in the same position. That is the reason an annual college festival is organized wherein where students display multiple skills which can be in the areas of music, dramatics, dance, cooking and many more. Literary activities like poetry writing, declamations and debates are equally encouraged.
