

Reforms on the Examination Procedures and Processes

The Institute follows annual system for B.D.S. programs and the performance of a student in each year shall be evaluated for each subject with a maximum of 100 marks for theory and 100 marks for the practical. In addition to the theory and practical exams, a clinical oriented mini-project, seminar, comprehensive viva-voce will also have a weightage.

The evaluation system and showing the evaluated answer script to the students are the measures taken as a part of the transparency in the evaluation system.

Some of the teachers are conducting online assignment tests as a part of the internal assessment.

Processes Integrating IT

Examination Management System (EMS) services is available to integrate all the activities in the examination branch. The pre and post examination activities are integrated, starting with examination notification.

Continuous internal assessment system

- Continuous internal assessment is done through conducting various tests from time to time.
 - Four theory unit test exams and an end posting practical exams are conducted for each subject in each year for B.D.S. course.
 - One sent up theory and practical examination is also conducted before the final university exams.
 - In between seminars, group discussions and quizzes are also conducted.

Competency Based assessment, work place based assessment and self assessment

Continuous practical / clinical training is given. Students also perform practical or clinical procedures in front of teachers and teachers assess their competency during the procedure through visualization as well as through questioning.
