Institution frequently updates its IT facilities and computer availability for students including Wi-Fi; -

The Internet is one of the most recent creation done by a person that has reformed the style of working and living. It has nearly decreased the separation and has broken all the human-made boundaries and brought the entire world readily available.

In-person and Remote access is a growing global industry in today's world. People from all walks of life are venturing into online education to expand their knowledge and skills.

Online distance education is available 24 hours a day, seven days a week from anywhere in the world.

B.J.S. Dental College Hospital & Research Institute has introduced a fully equipped and fictional audiovisual room in the college library complex which is now available to all faculties for talking online classes. These online classes are being taken according to scheduled timetable. The entire faculty deputed to take lectures via "Zoom Application and Google Meet". Online meeting of all HOD's and Dèpartment In charges of all medical and dental departments are held every week through Zoom Application. Zoom is the leader in modern enterprise video communications, with an easy, reliable cloud platform for video and audio conferencing, chat and webinars access mobile, desktop, room systems. Zoom Rooms is the original software based conference room solution used around the world. Wi-Fi is free for all students and faculty member .It provides a common platform which saves the precious time of all the users. It gives relevant information to everyone in just one click.

To help our students excel in their careers, BJS Dental College have started a series of webinars for them. Reputed speakers of national and international repute are being invited to deliver invited lectures on clinically relevant topic. We are holding

one webinar every week and first webinar started on 5t Oct 2020. There is ongoing "E-Lecture Series" for Interns even during the challenging COVID-19 crisis with the help of eminent speakers from all over India and the world. These webinars are being conducted through Zoom Application or Google Meet.

Online access to National and International specialty journals are available through J- Gate for the Faculty, PG and UG students. Latest version of computer systems, scanners and projectors are available in Computer Lab / E-Library for all users which is the basic need of modern era. It helps to update the education system in this fast growing world.

Every department has its own computer section with skilled staff. Just as the Internet has changed the way that institutions deliver education libraries need to adapt and change because they are at the forefront of delivering access, resources, and services that meet the needs of the distance learner.

Libraries and Librarians are also using tutorials and videos for instructional purposes to help bridge the gap from the traditional classroom to the virtual world. These tutorials are designed to assist DE students with using the Library's resources, including: how to search the catalog, how to find articles in the Library's databases.
