

THE INTERNATIONAL STUDENT CELL ACTIVITIES:

The issues affecting international students are unique in terms of the local language, culture, lifestyle practices, legal requirements, food habits and safety measures to be taken to be taken during the course of the study. We, therefore, hold regular meetings towards integrating International students into One Student community.

The students are encouraged to have interaction amongst themselves to foster stronger ties under benevolent vigil of their assigned mentors.

A group of senior students, identified by the mentors, serve as buddies to help tide over day to day problems faced by international students.

Our Aim is to intertwine welfare and educational experience, so we encourage newer ideas. Students communicate their views and feedback to student services and faculties. Together we work to make the student experience free from discrimination and sexism.

Partnership with staff

- We collaborate in the development and delivery of intercultural and international-student-friendly services and activities.
- Provide a key referral point for staff working with international students and their families through the hostel warden.
- Give general information like Indian culture, local languages and advice on supporting international students.
- Have meetings to discuss on issues related to international student support and cultural awareness.

Our Public Relations office is available to help address students concerns regarding any immigration question before or after coming to college. The students are also guided about the following issues which may concern them;

- Need to extend their visa to stay in the India.
- Are bringing a partner or family to India.

- Need guidance on preparing to come to India.
- Need assistance with Indian systems or services.
- Feel homesick or have difficulty adjusting to life in the India.
- Want access to more social opportunities with other Indian or international students.
- Need support to report an untoward incident.

Admissions

Our aim is to recruit the brightest and best students from all backgrounds through fair, consistent and transparent admissions process through the Baba Farid University of Health sciences in consonance with all its rules and regulations regarding the admission process of foreign students.
