

The Activity of Student Council & Amp: Representation of Students on Academic & Administrative Bodies/Committees of the Institution

The student council at Baba Jaswant Singh Dental College, Hospital and Research Institute comprises student members enthusiastic about stepping up into the role of a dynamic leader. It is a well-functioning and highly active organization. This council ensures the active participation of students in varied activities for the welfare and encouragement of the students. It also provides a platform for students to voluntarily communicate their apprehensions and challenges during their academic stay in the college. The college provides necessary support to the council members in managing and coordinating different committees needed for these purposes.

The various student committees constitute representatives from all academic years and departments led by staff members and senior faculties. These committees ensure maximum involvement and engagement of all the pupils & members of the institute.

The different committees formed for these purposes include Academic Committee Cultural Committee, Sports Committee, etcetera. Students from all academic years merge to form an Academic Committee. This committee helps students give feedback for any problems/ difficulties faced by the students concerning academics. The Cultural committee helps coordinate the participation of students in various cultural events conducted in the college, along with inter-college fests and cultural competitions. The Sports committee leads the organization and coordination of all sports activities in college or inter-college competitions. There is also an Anti-Ragging Committee which comprises members who take feedback from the students regarding any ragging issues from their perspective. Furthermore, the institute has a student Grievance Readdressing Cell which allows the students to freely express their personal or health-related issues during their college academic stay, helping them to remain motivated and upbeat and manage all sorts of challenges. A Hostel Committee also monitors the food and accommodation-related issues for hostel students.

The student council's principal objective is to create a platform where the students can showcase their skills, abilities and creativity while ensuring amicability across students and staff members with an abundant, vibrant and continuous range of campus events and activities in an academic year. The committees help encourage all students through maximum participation in these activities. They also function as a bonding medium between the faculty and the students. Participating in such committees benefits the students' future personality development and professional upgradation.

Altogether, the council and its committees are incredibly advantageous for the student's well-being and personality development.
