

ALUMNI ASSOCIATION

An active alumni association of former graduates of B.J.S exists, which is yet not registered. This passionate group of professional have an online portal at which they share their academic achievements-books, newer job opportunities in India and abroad and bond at a personal level. The alumni association organizes a meeting in the campus twice a year wherein the initiation of a 'Thinking Cafe' has been envisaged. Former students who have excelled professionally share their experience of this platform and newer ideas for improvements in teaching and placements are conceived. The alumni also sponsor some awards for students excelling in Academics to offer inspiration to hold the standard of research and profession higher.

Just like most other college student organizations, alumni association aims to bring together like-minded individuals. We have online alumni group in which all the former students are added. They keep on sharing things in the group like new research articles, e-books, job opportunity in India and foreign countries. This way everyone gets to learn and explore never horizons whilst remains connected and tied to their alma mater.
