

AVAILABILITY AND ADEQUACY OF GENERAL CAMPUS FACILITIES AND OVERALL AMBIENCE

When one proceeds to describe an institution as prestigious as Baba Jaswant Singh Dental College and Hospital, the only word that comes to mind is all-encompassing. Not only is the college and hospital, equipped with all the essential facilities, but also it does not compromise in its appearance. The institute has all the required medical facilities such as a well-equipped drug store and adequate equipment for patient handling and care in abundance as well as other essential requirements. Further, there is proper provision of well-maintained and well-equipped hostels for the students of both graduate and postgraduate courses. The hostel caters to all the basic needs of the students including a 3 time meal. The rooms are adequately built with all of the students' needs taken into consideration. They are spacious and provided with essential furniture as well as an amenities like air conditioners and microwaves. There is adequate facilitation of well-sanitized washrooms for the staff as well as patients. These are peppered throughout the institute so that they can be easily accessed in every part of the campus.

To add to all this there is also a provision of an in-campus bank which can again be used by staff and patients alike. The bank has polite employees with commendable customer service. Anyone who wishes to withdraw money from the bank can easily do so, without the hassle of having to go out of the campus to do it.

There are water purifiers spread all over the entire institute including the hostels for provision of fresh drinking water to all those who need it. Apart from all these essential features, another part of the institute to be taken into consideration, are the well maintained roads to every building. These roads are complete with directions to every department as well as the hostels, and signage to help people navigate comfortably around the grounds. When it comes to the facade of the college and hospital, everything has been taken into consideration, including the flora that pervades the gardens. The multi-fold flowers planted all over the spacious garden in and around the entrance of the institute bloom beautifully in the spring. For the rest of the year there are trees planted all across the boundaries, making the outlook extremely pleasant to the observer's eye.

It is also not difficult for one to voice their complaints and demands, if they have any, as the college is always open to suggestions. All the features that have been added are through the needs of the students and teachers that were voiced by them. Whenever any lack has been felt by any member of the college, the institute has tried their best to accommodate that into the campus.

All these features and facilities make the visitors and employees speak highly of the institute. I truly believe that all these factors and features make the institute unique, welcoming and convenient for everyone who enters the gates of the BJS campus.
