Journals: - 105

The library is a key to the world of knowledge and acquisition of knowledge will help enlighten the personality of an individual at the vital, spiritual and mental levels and will inculcate social virtues and foster intellectual development to make him a worthy citizen.

A well-housed and well-managed library is the foundation of modern educational structure. To keep pace with the ever- expanding field of knowledge the library is being updated from time to time.

A learning resource center is a facility within a school, staffed by a specialist, containing several information sources.

Learning Resource Centers can also be institutionalized in various institutions for teaching and learning purposes. The purpose of a resource center is to advanced the learning experience of students and teachers in any educational sector.

This view encourages educational trends, ruled in mid of 1960s and 1970s, whereas these are the methods of self- learning, from programmed learning and learning for mastery and learning throughout audio media to passing earliest beginnings to employ computer in learning process. And, information technology and teaching and learning theories have added a new dimension into learning resources centers concept.
